Installation Notes

Conductor termination

Terminating solid conductors: Simply push in stripped conductor until it hits the backstop.

Inserting/removing fine-stranded conductors:
Open the clamping unit via push-button and insert a stripped conductor until it hits the backstop.
Application

WAGO's 804 Series Terminal Strips provide "internal commoning" to meet requirements than ban routing the ground conductor over the board. This enables custom terminal strips to be commoned and marked at the factory upon request.

Installation

Mixed-color terminal strips are available upon request.
Installation

Terminal strips with spacer are available upon request.

Marking

Labeling via self-adhesive marking strips or factory direct marking.

Testing

Testing via 1 mm Ø test pin.
